

Cleaning around the house: With the Kärcher S 550 you can sweep paths, roads, driveways and yards up to five times faster than with a broom and pan. Sweepings are immediately collected in the container so they are not blown about. Simple, fast and clean.

Standard accessories:

- Push handle height adjustable in two stages
- Stowage position
- Stand-up waste container

Container (l)	16

Details

Description

S 550: Powerful and convenient. The push handle with four-way height adjustment can be set to suit the user perfectly. If necessary, the push handle can be folded flat to take up a minimum of storage space. The sturdy roller brush and side brush on the S 550 provide a sweeping width of 550 mm. Large areas as well as edges and corners are swept fast and thorough. The S 550's waste container is quickly removed and is designed to stand on its own.

Application

Easy cleaning of pathways, roads, yards, driveways and garages.

Features & Benefits

Adjustable push handle Comfortable handling, fits different body sizes perfectly Stowage position The unit can be folded completely flat for space saving storage Stand alone waste container with integrated handle Makes the emptying easier
